"Amazing Things" :30 TV

5

Open on darkness, then a VO cues a series of beautiful and amazing visuals.

VISUAL: Shot of Aurora Borealis.

VO: What's the most amazing thing you ever saw?

VISUAL: Tight shot of an amazing look from a person straight into camera.

VO: ...Was it something big?

VISUAL: Whale breaching in water.

VO: ...or something small?

VISUAL: Bioluminescent microscopic organism.

VO: ...Something old?

VISUAL: Stars in the middle of the desert.

VO: ...or something new?

VISUAL: Newly delivered baby.

VO: ...Or maybe, just maybe...it's something you haven't seen yet.

VISUAL: Cut to a shot of the Intel Core badge on a laptop - then camera rapidly pushes in and through badge into a stunning graphic end treatment of light and technology visuals. It is a montage which transitions from tight shot of eye/body of spot through to the SigID ending.

VO: Introducing the 2nd generation of Intel Core processors.

AFX: Intel SigID Chime plays underneath.

Card: Intel Core i5 processor

SUPER: Visibly Smart

LOGO: Intel

SUPER: Sponsors of Tomorrow™
